6th of October 2026

Attendance

Present: Elias Rode, Sahna Mulligan, Hera Flores Estrella, Richard Sheahan, Ronja Praznikar, Eamon Kerney, Paraic Clerkin, Andrei Ion. Niall Morahan, Yara Recinella, Liam Gartland

Absent:

Minutes and Discussion

1. Meet the committee post

- By Thursday everyone should send photos of themselves to include in the post
- Eamon will come up with questions to include in the slides

2. Year reps

- The year reps will be taking care of the posters for the events that require one
- They should try and be more proactive, especially in the groupchats
- Since we don't have a rep in 3rd year, Eamon will act as one
- Liam should try and get into the 1st year maths groupchat

3. Getting posters in advance

- Things in the calendar should be up multiple weeks in advance
- The posters should be printed ten days before the event
- Instagram posts about the event should come out a week in advance (also spam on the stories)

4. Carreer's fair

- It's happening next Tuesday from 11.15 to 13 in the Fitzgerald Library
- A carreer's fair email blast will be sent to give people notice in advance
- Most of the committee should be there

5. Secretary's report

- The email stats are good
- Will book a place for the Estimathon, happening on the week of the 2nd of November, hopefully on Thursday - hopefully get a ticketing system going to track attendance

6. Treasurer report

- Grants applications are open, the goal is to have them done before reading week
- The CSC is paying for our domain so all good on that front
- Hopefully we can get money for the competitions, given how much we spent last year
- For the room, we want to get some shelves to clear up the space behind the table

7. Instagram squad

- Everybody is signed in on the instagram

8. Collabs

- Collab with chesssoc: chessboards, games and snacks on Thrusday the 15th 2-4. Will try to get the Fitzgerald Library.
- For that event: Yara will get the snacks and will set up with Hera; Sahna, Liam, Richard and Hera can stay at the event; Liam and Elias on cleanup
- By next week's meeting everyone should come up with an idea for the collab

10. Andrei and problem solving

- it's going well, especially the beginner's session, but to drive more peole to it, Eamon should post and avertise it
- the inclusivity subcommittee should start going to boost the gender inclusivity
- to interest more people, the email should feature a favourite problem of the week as an image
- for inclusivity, Andrei suggests involving Andreaa and Manya to help, we could do a more girls oriented oroblem solving sesson but we need to figure out the details
- since next week is Irish Math week, we could try and collab sith UCD's mathsoc for a collab in problem solving

11.Committee bonding

- Elias will host something next week, he'll send a lettuce meet

Any Other Business

- Jane street not getting back to us
- need to inform csc secretary on the results of the Egm
- Mathsoc trip subcommittee: Sahna, Niall, Ronja, Eamon, Richard and yara
- Make a copy of the calendar and share them with physoc and tpsa
- Marvin wants us to help us advertise

Meeting concluded.
