DU Mathsoc – 104th Session

Minutes of Meeting

13th of Otcober 2026

Attendance

Present: Elias Rode, Sahna Mulligan, Hera Flores Estrella, Richard Sheahan, Ronja Praznikar, Eamon Kerney, Paraic Clerkin, Andrei Ion. Niall Morahan, Yara Recinella, Liam Gartland

Absent:

Minutes and Discussion

1. This week and next week

- Friday it's Hamilton day so Elias is looking for people to walk to Broombridge with. The meeting point would be downstairs of the Hamilton at 9.30AM - Eamon will put a story up
- Halloween problem solving: Tuesday at 6PM - computer science building, lloyd tutorial rooms, global room are all options for the place. Members that could attend: Ronja, NIall, Andrei, Sahna, Liam
- Next week we could do another girl coffee hour, but we should pick a better time

2. estimathon and other upcoming events

- The estimathon is happening on thrusday of the week after reading week, we want to try the pav, otherwise lombard or the upstairs of chaplins
- The estimathon will hopefully be in collab with physsoc so we can have 3 rounds of questions

3. inclusivity

- it might be good to focus on inclusion events that are not specifically to address the gender gap
- For the competitions, we could see if there are female only college level competitions, or make the team proportional to the amount of women in the course
- Mathsoc could do its own version of the intervarsities with less at stake to attract more people, but the problems wouldn't be too easy because we don't want people not to be ready

Any Other Business

- For the room, we need shelves over the table
- We're getting a nice new dehumidifier
- We could free the table on the other side of the room

Meeting concluded.
