Attendance

Present: Elias Rode, Sahna Mulligan, Hera Flores Estrella, Richard Sheahan, Ronja Praznikar, Eamon Kerney, Paraic Clerkin, Andrei Ion. Niall Morahan, Yara Recinella, Liam Gartland

Absent:

Minutes and Discussion

1. Estimathon

- Hera has contacted the pav and the lombard but we don't have anything sure yet
- we could ask Jane Street to give us questions for a challenge round, that could also have a special prize
- kahoot could be fun for a round - it would be best if we switched
- shorter rounds might be best - 3 rounds of 6 questions per round

2. other events for the week

- 2-4 pizza and board games - it would be better to have a bigger room, will try for the fitz or even better the maths help room, or the global room
- The pizza will be from sano pizza as it's half price for students
- we could do a short info session on the trip before the event
- Sahna will deal with the reservation and the bringing of the pizzas

3. week after that

- for the Stalker talk, will try to get the Maxwell
- we're going to get him a mug
- for the other social event, a collab would be good: will try for knitsoc first and if that doesn't work then mahjong

4. collabs

- Knitsoc would be good, we should do it at a time when Adam is free
- Paraic is working for a poker tcd-UCD collab, we'll see where to hold it
- compsci collab pub quiz or hackathon

5. **week 10**

   - we could hold an exam talk or something similar

Any Other Business

- Problem solving - Beginners might need a bigger room on a weekly basis

---

Meeting concluded.
